Dear Parent(s)/Guardian(s),

Your son/daughter is currently enrolled in the General Science and Technology course. It is my pleasure to have your child in my class and I am committed to providing him/her with the tools needed to be successful in and out of the classroom. This **course is a compulsory requirement for high school graduation**. The content of the course is somewhat challenging and requires a large amount of dedication and effort on the part of your child. **Please be aware that I will assign homework frequently.**

It is important for the success of your child that they bring the following materials to every class:

- Pencils/pens, erasers, ruler, coloured pencils, highlighters
- Scientific Calculator
- Loose-leaf,
- 2” binder

The school provides textbooks and students are expected to bring their textbooks to class when asked.

**CLASS WEBSITE:**

<http://www.sannitiscience.weebly.com>

This site is available to both students and parents alike. On the site, you will find class notes and assignments on the various topics throughout the year, as well as important dates such as due dates and test dates. Links to other websites may also be included on this site to compliment the class notes and work done in class.

Also on the website is a link which allows both you and your son/daughter to see the results of various tests, quizzes and other assignments. Please look for the link to “Student grades” on the website and follow the instructions to access [www.thinkwave.com](http://www.thinkwave.com). ***Note that the overall grade posted on [engrade.com](http://engrade.com) is NOT the final grade, as the weighting of the marks will be done at the end of each term.***

In order to access [thinkwave.com](http://thinkwave.com) **you have already been sent an email**, which includes an access code and instructions to follow, in order to set up your account. This email was sent to the email address provided to the school. Please look for anything containing St. Thomas High School in the subject and check your junk mail, in case it accidentally ended up there. You and your child will have your own individual access codes for this website.

Throughout the year, I will use **the email address and phone numbers provided** to the school to contact you as concerns arise. If your child is absent for any reason he/she is responsible for finding out what has been covered and completing all work/assignments and/or tests.

If you have any questions, please do not hesitate to email me or call the school and leave a message for me.

Wishing you and your child a happy and successful year!

Sincerely,  
Amanda Sanniti  
Science teacher
